PROFILE SUMMARY

Motivated and detail-oriented Frontend Web Developer with a strong foundation in HTML5, CSS3, JavaScript (ES6+) and React.js, currently completing professional training in Frontend Web Development at Tops Technology, Ahmedabad. Skilled in building responsive, mobile-first interfaces using Flexbox, CSS Grid, Bootstrap and Tailwind CSS, with a keen eye for clean layout, accessibility and pixel-accurate conversion of UI designs into working code. Comfortable with Git/GitHub version control and modern tooling such as VS Code and Vite. Seeking an entry-level Frontend Developer role where I can contribute to real products, write maintainable code and grow alongside an experienced development team.

CORE COMPETENCIES

Languages	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries	React.js (Basics), Bootstrap 5, Tailwind CSS
Layout & Responsive	Flexbox, CSS Grid, Media Queries, Mobile-First Design
Web Concepts	DOM Manipulation, REST APIs, JSON, Fetch API, Async/Await
Tools & Workflow	VS Code, Git & GitHub, Chrome DevTools, Figma (Handoff), Netlify, Vercel
Soft Skills	Communication, Problem Solving, Teamwork, Time Management, Quick Learner

TRAINING & PRACTICAL EXPOSURE

Frontend Web Development — Tops Technology, SG Highway, Ahmedabad

2026 • Ongoing (Classroom Training)

- Undergoing structured training covering the complete frontend stack — semantic HTML5, advanced CSS3, JavaScript fundamentals to advanced level, and React.js component architecture.
- Practising responsive and cross-browser layouts daily using Flexbox, CSS Grid, media queries and utility-first frameworks such as Bootstrap and Tailwind CSS.
- Building hands-on mini projects with form validation, DOM manipulation, event handling and API integration, reviewed and corrected by trainers.
- Maintaining all assignments and projects in individual GitHub repositories with regular, meaningful commits to build a clean development workflow.

ACADEMIC & PERSONAL PROJECTS

Personal Portfolio Website

HTML5 • CSS3 • JavaScript • Netlify

- Designed and developed a fully responsive single-page portfolio with hero, about, skills, projects and contact sections.
- Built a mobile-first layout using Flexbox and CSS Grid; verified the layout across Chrome, Firefox, Edge and mobile viewports.
- Implemented smooth scrolling, an interactive dark/light theme toggle and a JavaScript-based contact form with client-side validation.
- Deployed the final build on Netlify with SEO meta tags, favicon and Open Graph tags.

E-Commerce Landing Page

HTML5 • Bootstrap 5 • JavaScript • LocalStorage

- Created a product listing page with responsive navbar, hero carousel, category filters and a footer newsletter block.
- Developed a slide-out cart drawer with add/remove quantity controls and persisted cart state in the browser using LocalStorage.
- Used Bootstrap grid and custom CSS overrides to achieve a clean, modern UI that adapts from 360px mobile screens to large desktops.
- Added form validation and accessible focus states to improve keyboard usability.

Task Manager Web Application

JavaScript (ES6) • HTML5 • CSS3 • LocalStorage

- Built a to-do application supporting create, edit, complete and delete operations with instant UI updates through DOM manipulation.
- Structured the code in modules using ES6 features — arrow functions, template literals, destructuring and array methods such as map, filter and reduce.
- Implemented task filters (All / Active / Completed) and persistent storage so data survives a page reload.
- Handled edge cases such as empty input, long text wrapping and duplicate entries.

Weather Dashboard (API Practice)

JavaScript • Fetch API • REST API • CSS3

- Developed a weather lookup app that fetches live current-weather and forecast data from a public REST API using fetch and async/await.
- Rendered dynamic weather cards with icons, temperature, humidity and wind details, including loading and error states for invalid city names.
- Added debounced search input and responsive card grid for a smooth experience on mobile devices.

EDUCATION

Frontend Web Development 2026 – Ongoing
Tops Technology, SG Highway, Ahmedabad

Higher Secondary Certificate (HSC) Completed
Gujarat Secondary & Higher Secondary Education Board

Secondary School Certificate (SSC) Completed
Gujarat Secondary & Higher Secondary Education Board

CERTIFICATIONS & CONTINUOUS LEARNING

- **Frontend Web Development** — Tops Technology, Ahmedabad (professional training, ongoing).
- **Self-paced learning:** JavaScript ES6+ fundamentals, React component basics and responsive design patterns through freeCodeCamp and official documentation.
- Regularly practises coding challenges and UI clones to strengthen CSS layout and JavaScript logic skills.

HIGHLIGHTS

- Built and deployed 4 responsive web projects, all available on GitHub and live hosting platforms.
- Comfortable converting Figma/Adobe XD mockups into pixel-accurate, responsive HTML/CSS within deadlines.
- Active learner — follows modern frontend practices such as component-based architecture, semantic markup and web accessibility (WCAG basics).

LANGUAGES

English — Professional working proficiency **Hindi** — Native **Gujarati** — Native

KEY STRENGTHS

- **Strong CSS fundamentals** — comfortable with Flexbox, Grid, positioning, transitions and animations to build clean, modern interfaces.
- **Responsive by default** — every layout is built mobile-first and tested across breakpoints, browsers and real devices.
- **Debugging mindset** — uses Chrome DevTools, console logging and breakpoints to trace issues quickly instead of guessing.
- **Clean, readable code** — follows semantic HTML, meaningful class naming and component-based structure for easy maintenance.
- **Fast learner** — picks up new libraries and tools independently through documentation and hands-on practice.
- **Team player** — comfortable taking feedback, asking the right questions and coordinating with designers and seniors.

TOOLS & DEVELOPMENT ENVIRONMENT

- **VS Code** — primary editor with Prettier, Live Server, ES7 React snippets and GitLens for a faster workflow.
- **Git & GitHub** — branching, commits, pull requests, resolving merge conflicts and publishing projects with GitHub Pages.
- **Chrome DevTools** — inspecting elements, testing responsive breakpoints, debugging JavaScript and checking network/API calls.
- **Figma** — reading designs, measuring spacing and exporting assets for pixel-accurate implementation.
- **npm & Vite** — creating React projects, installing packages and running local development and production builds.
- **Netlify & Vercel** — deploying static sites and React apps with custom domains and build settings.

AREAS OF INTEREST

- Frontend / UI development and design-to-code conversion
- React.js single-page application development
- Responsive and accessible web design (WCAG basics)
- Performance optimisation and modern CSS architecture

PERSONAL DETAILS

Nationality	Indian	**Location**	Ahmedabad, Gujarat
Availability	Immediate	**Work Preference**	On-site / Hybrid
Preferred Role	Frontend Developer	**Relocation**	Willing to relocate

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief. I am a quick learner and am confident of contributing meaningfully to the growth of the organisation.
